

Program Completion and Continuing Education Pathways

Certificate of Completion

Upon successful completion of the VEEB Practical Nursing Program, students will receive a Certificate of Completion for the 1,110 clocked hours earned throughout the program.

Completed clock-hour credits are transferable only to schools that have an established articulation agreement with VEEB and only after the student meets the required academic criteria.

Continuing Education and Articulation Agreements

The Vocational Education and Extension Board (VEEB) Practical Nursing Program maintains direct continuing education agreements with several nursing institutions. Through these partnerships, eligible VEEB graduates may receive college credit toward a Registered Nursing (R.N.) degree.

Eligible VEEB P.N. graduates may be referred to participate in partnered R.N. programs once they have satisfied all required academic criteria.

Partner Schools

VEEB currently maintains articulation agreements with the following institutions:

- **Helen Fuld College of Nursing**
- **Nassau Community College**

These agreements provide students with clear and established pathways to continue their nursing education and progress toward becoming Registered Nurses.
